SITTING POSITIONS

The religious performers generally play on Harmonium in Squatted position i.e. sitting with legs rolled round as shown in the picture. The Harmonium is placed in front close to the right knee. This style is also called Easy sitting.

The musical performers generally sit by keeping the legs bent backward or sitting with legs rolled round. The instrument is placed on the left thigh touching the ground near the right knee.

Family members play music for fun

Music is the most suitable means of recreation and fun. In this type of recreation the whole of the family members can play any of the instruments. Music gives us both recreation as well as devotion to god.

Teaching harmonium to lovely Children

Ladies play the most important role in training their young ones. They can teach them easily in side of the house. They should first of all teach the child the tuning of voice according to notes and make them put their fingers on the key by themselves.

Handling of Harmonium

- (i) Remove the cover of the Harmonium.
- (ii) Open the bellows.
- (iii) Pull out the two front stops.
- (iv) Put the fingers on the keys before blowing air through bellows.
- (v) In the playing of Harmonium, the left hand is used to press the bellows while the right hand fingers to press the keys. The four fingers of left hand should remain on the slit of bellows and the thumb on the slit of box of Harmonium towards inside. By doing so the pressure on the bellows remains balanced and exerts correct pressure. At the time of using right hand fingers the arm should remain parallel to the keys of Harmonium and the elbow should not rest on any part of the body. The resting of elbow on any part of the body produces obstacle in free movement of fingers.

Movement of Fingers

- (i) Do not put fingers in straight position on the keys. The straight fingers cannot press the keys swiftly. It may effect the free movement of fingers. So, keep the fingers in semicircular bent state.
- (ii) At the time of movement of fingers on Harmonium, they should not cross over one another. It may put obstacle in playing.
- (iii) The first,second and third fingers are generally used in playing Harmonium. The fourth finger may also be used when required. The fingers can be used both on black and white keys.
- (iv) Do not press the keys heavily. The heavy pressure over the keys may cause inner slit to produce unnatural sound.
- (v) The use of thumb should be restricted to white keys only. It is not to be used for pressing the black keys.

Using of Bellows

- (i) On blowing air through the bellows without putting fingers on keys pressure is exerted over the reeds and it may spoil the tune.
- (ii) Blow air in to the bellows by slight movement of left hand. If greater pressure is exerted over the bellows, the sound is produced on high pitch and that high sound may cover the tune of the singer.
- (iii) The melodious sound of Harmonium depends upon the pressure of left hand on the bellows. If it is pressed with balanced high or low according to the tune of the song, the sound produced will be sweet.
- (iv) Do not blow air through the bellows without opening the stops. On blowing air without opening the stops the pressure of air inside the inner bellows grows high and may lead to explosion of inner bellows.
- (v) Remove the air of the bellows by pressing the keys before closing it. Close the stops after closing the bellows.

Safety of Harmonium

- (i) The Harmonium should not be kept in a damp place. It may loose the joints of the bellows.
- (ii) It should be saved from high temperature and other sources of heat. This condition spoils the polish and colour of the instrument and further the reed board.
- (iii) Never put fingers into the holes made in the slits in which valve is fitted. This may loose pressure of air.
- (iv) Apply some paper or cloth in the inner side of the box in which the harmonium is to be kept so that it may not be eaten up by germs and insects.
- (v) Save the Harmonium from mice etc. So, do not keep the Harmonium uncovered in open place.

Harmonium and its parts

Box—The body of harmonium is like a box fitted with wooden plate at the back side for bellows .

Stop—In the front of the box are four or five stops. The harmonium is played on butting these stops out.

Keys. In the upper portion of the box are black and white keys for producing notes.

Brass springs (Sundaries)—The brass springs are meant for keeping keys in normal position at the time of playing.

Reed Board.—The plate in which these keys are set is called the reed board which contains many holes. The keys are fitted over these holes. On the inner side of the reed board are reeds. When the air from bellows passes through this it tries to come out by touching the reeds.

Bellows.— Bellows is used to get the air in with the help of left hand to produce sound through reeds.

Organ type Harmonium.

Types of Harmonium

- (1) Simple Harmonium
- (2) Coupler Harmonium
- (3) Suit case type Harmonium
- (4) Scale Change Harmonium.
- (5) Organ type Harmonium.

Simple Harmonium—Simple Harmonium is classified into 4 types :

Coupler Harmonium—This Harmonium is made on the same style as simple Harmonium—with the only difference that in coupler Harmonium one more reed board is fitted between the upper reed board and the keys and the wires of that reed board are connected with the keys. When we press any of the keys with the finger, the keys of the second octave press down itself. This type of Harmonium is used by Bhajan Mandalies and Nautankees.

Suitcase Harmonium—This Harmonium is like suitcase and is used by the Bhajanik at the time of travelling. The bellows is adjusted with the upper cover. When it is fitted after opening it takes the shape of common Harmonium.

Scale Change Harmonium—The construction of this type of Harmonium is like the simple harmonium but the keys are not fitted over the key board. They are fitted with another plate which is connected with another tape. On moving that tape side-ward the keys themselves leave their place to fit on another note. So this instrument is useful only for those who practice for playing with one note.

OrganType Harmonium—This Harmonium is made on the basis of Hand and foot Harmonium. In this instrument the Harmonium and foot bellows remain united. The upper portion cannot be separated. It looks like wooden box and can be kept in it in folded condition. This is played by sitting on stool or unarmed chair and is used in dramatic clubs.

Harmonium according to bellows :

Three types of bellows are used in Harmonium. Normally—Single bellows, Double bellows and English bellows.

Single Bellows Harmonium—The harmonium which contains only one bellows to push air in is called the single bellows harmonium. The one end of the bellows is pasted with the box and other with the bellows plate.

Double Bellows Harmonium—In double bellows Harmonium an extra bellows piece remains adjusted with the main bellows in centre.

English Bellows Harmonium—This bellows is made by uniting several pieces of small bellows. The bellows remain connected with both the plates like simple bellows but inspite of opening as a whole from upper part it opens from one side. This bellows has higher capacity of force to blow air in.

Harmonium according to number of keys

There are three types of Harmonium:

- (i) 3 Octave Harmonium containing 37 keys.
- (ii) $3\frac{1}{2}$ Octave Harmonium containing 39 keys.
- (iii) $3\frac{1}{2}$ Octave Harmonium containing 42 keys.

Brief Outlines of Indian Music Theory

Indian Music is based on Ragas and Ragas are based on Nad, Shruti, Swara, Saptaka & Thatha.

NADA :—Nada is nothing but a sound which is produced by the striking of various objects. It should be hearable by ears. A Nada is of two kinds :—

Musical Sound (Nada) :—It is a sound which appeals the mind of a listener. The musical notes-like Shruti and Swaras are produced by the regular musical sound.

Unmusical Sound :—It is a sound which is not regular and definite. It does not appeal the minds of listeners. The noise of machines and other objects of the same type are included in it. It does not concern with music.

Shruti is merely a minute sound capable of being heard by the ear. The interval between two Shrutis is a very small gap which can only be distinguished by an expert musician. Hence these Shrutis are also called the microtonal Intervals of sound. There are 22 Shrutis which are used in Indian Music.

Swara :—On account of very minute gap in sound, the common man felt it difficult to understand Shrutis. The enchanting and melodious sound the time and gap of which is comparatively more than that of Shruti is called Swaras. As a matter of fact Swaras and Shrutis are alike. The only difference between them is that Swaras are measured by Shrutis. To remove the practical difficulty of recognising the minute gap of Shruti, 7 Shudha Swaras or full notes came in practice. These seven Swaras are :

SHUDHA, KOMAL & TIVRA SWARAS

S. No.	Swaras	Swaras' Description	English Name

10.	Dha	Shuddha	A Full Tone Note
11.	<u>Nee</u>	Komal	B Half Tone Note

Lay (Rhythm or Speed)

Lay—(Rhythm) in ordinary sense lay means Rhythm or speed or any regular movement to complete a circle in a definite time. It is a natural harmonious flow of vocal and instrumental sound and also a regular succession of accent. According to the observations three types of Rhythm have been accepted in Indian music. All the percussion instruments are used to control and regularise the musical sound.

The Three types of Rhythm are :

A—Madhya Lay (Medium or Normal Rhythm).

B—Drut Lay (Quick or Fast Rhythm)

C—Vilambit Lay (Slow Rhythm).

Normal Rhythm—Normal Rhythm is the time required by musician to complete a round or a circle of a part of song, tune or dance in easy way without any exertion. Normal Rhythm is the base of the remaining two Rhythms i.e. fast and slow Rhythms.

Fast Rhythm—Fast Rhythm means half the time of normal Rhythm i.e. if a musician requires one minute time to complete a part of song tune or dance, in normal Rhythm he will require half of the time taken by the normal Rhythm. In other words we can say that the musician can take two rounds of his definite part of play in the time required in the normal Rhythm.

Slow Rhythm—In slow Rhythm a musician takes double the time to complete the round required by the medium or normal Rhythm, Suppose, if he completes a round of his play in one minute in normal Rhythm he will take two minutes to complete the same round.

Tal & Lay (Time & Rythm)

Tal—In Indian music the time element is an essential process. The regular succession of sound Vibration is necessary to make sound musical. Also in vocal, Instrumental music and dancing, intervals are created to make it melodious. These intervals were created by clapping of hands and hence it is called Tal.

The late Indian musicians invented many talas of different matras (Strokes) Khand (Bars) and Boles (Words) and fixed the points of 'Sam', Talis and Khalis for every Tal.

Matra—(Stroke)—A matra is taken as the shortest time in which a syllable can be properly pronounced. In medium Rhythm the time of a matra is presumed to be one second, in fast Rhythm half second and in slow Rhythm two seconds.

Boles—Sound produced by Tabla Dhama or Duggi by the stroke of fingers and hand in different ways, is called boles i.e. Ta, Na, Tee, Tin, Ke, Ge, Te, Tay, Dha, Dhe, Dhin.

Indian Music Notation on Harmonium

In Indian music seven full tone, four half tone and one sharp note are used. The gaps between them are as follows :—

Gaps between Natural Scale :—

S 1 R 1 G $\frac{1}{2}$ M 1 P 1 D 1 N $\frac{1}{2}$ Sa

Gaps between 12 notes :—

S $\frac{1}{2}$ R $\frac{1}{2}$ R $\frac{1}{2}$ G $\frac{1}{2}$ G $\frac{1}{2}$ M $\frac{1}{2}$ M $\frac{1}{2}$ P $\frac{1}{2}$ D $\frac{1}{2}$ D $\frac{1}{2}$ N $\frac{1}{2}$ N $\frac{1}{2}$ S

The keys of Harmonium are fixed according to the above gaps :—

The arrangement of notes in Harmonium is as follows :—

1	Sa fixed	Full Tone Note	S
2	<u>Re</u>	Half Tone Note	<u>R</u>
3	Re	Full Tone Note	R
4	<u>Ga</u>	Half Tone Note	<u>G</u>
5	Ga	Full Tone Note	G
6	Ma	Full Tone Note	M
7	<u>Ma</u>	Sharp Note	<u>M</u>
8	Pa fixed	Full Tone Note	P
9	<u>Dha</u>	Half Tone Note	<u>D</u>
10	Dha	Full Tone Note	D
11	<u>Nee</u>	Half Tone Note	<u>N</u>
12	Nee	Full Tone Note	N
13	S	Fixed Upper Octave	S

The key from 1 to 12, are called the notes of lower octave, keys from 13 to 24 are called the notes of medium octave, while keys from 25 to 37 are called the notes of upper octave.

You can set any of the key of Harmonium as Sa note according to the voice of your throat. Fix No. 13 on the key which suits your throat and arrange further numbering accordingly. You will get all the notes of medium Octave automatically.

The male musicians usually fix as their Sa on any of the note from Sa to Ma i.e. from key No. 13 to 18. The black keys from 14 to 16 are fixed as Sa by the majority of male musicians, as the harmonium can be played easily when any black key is fixed as Sa.

The sound of female musicians have higher pitch. Therefore, they fix Sa point according to their throats from Ma to Nee i.e. Key Nos. 18 to 24. Generally black keys are used as Sa and the keys No. 19, 21 and 23 are used.

The notes of other octaves i.e. Lower and Upper are set naturally.

चांदी की दीवार न तोड़ी, प्यार भरा दिल तोड़ दिया,
इक धनवान की बेटी ने, निर्धन का दामन छोड़ दिया।

कल तक जिसने कसमें खाईं, दुख में साथ निभाने की,
आज वो अपने सुख की खातिर, हो गई एक बेगाने की।

शहनाइयों की गूंज में दबके, रह गई आह दीवाने की,
धनवानों ने दीवानों का, गम से रिश्ता तोड़ दिया।

वो क्या समझे प्यार को, जिनका सब कुछ चांदी सोना है,
धनवानों की इस दुनिया में, दिल तो एक खिलौना है।

सदियों से दिल टूटता आया, दिल का बस ये रोना है,
जब तक चाहा दिल से खेला, और जब चाहा तोड़ दिया।

CHANDI KI DIWAR.....

Chandi kee deewar na tori, piyar bhara dil tor diya,
Ik dhanwan kee beti ne, nirdhan ka daman chhor diya.

Kal tak jisne kasmen khain, dhukh men sath nibhane kee,
Aaj wo apane sukh kee khatir, hogai ek begane kee.

Shahnaiyon kee gunj men dabke, rahgai ah deewane kee.
Dhanwanon ne deewanon ka, gam se rishta tor diya.

Wo kiya samajhen piyar ko, jinka sab kuchh chandi sona hai.
Dhanwano ki is duniyan men, dil to ek khilona hai.

Sadiyon se dil toottata aya, dil ka bas ye rona hai,
Jab tak chaha dil se khela, aur jab chaha tor diya,

फिल्म आँखें :—

मिलती है जिन्दगी में....

मिलती है जिन्दगी में मुहब्बत कभी-कभी,
होती है दिलवरों की इनायत कभी कभी ।

शरमा के मुंह न फेर, नज़र के सवाल पर,
लाती है ऐसे मोड़ पर किस्मत कभी-कभी ।

तनहा न कट सकेंगे, जवानी के रास्ते ।
पेश आएगी, किसी को जरूरत कभी-कभी ।

फिर खो न जाएं हम कहीं दुनियां की भीड़ में,
मिलती है पास आने की मोहलत कभी-कभी ।

FILM ANKHE :

Miltee hai zindagi....

Miltee hai zindagi men mohabbat kabhee-kabhee,
Hoti hai dilwaron ki inayat kabhee-kabhee.

Sharma ke munh na pher, nazar ke sawal par,
Lati hai ese mor par, kismat kabhee-kabhee.

Tanha na kat sakenge, jawanee ke raste,
Pesh aegee, kisee kee jaroorat kabhee-kabhee.

Phir kho na jaen ham kahin, duniyan ki bhir men,
Miltee hai pas ane kee mohal at kabhee-kabhee.

FILM SONGS WITH NOTATIONS

फिल्म दो रास्ते :—

छुप गये सारे नजारे...

छुप गए सारे नजारे, ओए क्या बात हो गई,
तूने काजल लगाया, दिन में रात हो गई।

मिल गए नैना से नैना, ओए क्या बात हो गई,
दिल ने दिल को पुकारा, मुलाकात हो गई।

कल नहीं आना, मुझे न बुलाना, कि मारेगा ताना जमाना—
तेरे होठों पे रात यह बहाना था,
गोरी तुझको तो आज नहीं आना था।

तू चली आई, दुहाई, ओए क्या बात हो गई,
मैंने छोड़ा जमाना, तेरे साथ हो गई।

अंबुआ की डाली पे गाए मतवाली, कोयलिया काली निराली—
सावन आने का कुछ मतलब होगा,
बादल छाने का कोई सबब होगा।

रिम भिम छाएँ घटाएँ, ओए क्या बात हो गई,
तेरी चुनरी लहराई, बरसात हो गई।

FILM DO RASTE :

Chhup gae sare nazare....

Chhup gae sare nazare, Oe kiya bat ho gai,
Toone Kajal lagaya, din men rat ho gai.

Mil gae naina se naina, Oe Kiya bat ho gai,
Dil ne dil ko pukara, mulakat ho gai.

Kal nahi ana, mujhe na bulana, ki marega tana jamana—
Tere hathon pe rat yah bahana tha,
Gori tujh ko to aj nahin ana tha.

Too chali ai, duhai, Oe Kiya bat ho gai,
Mene Chhora jamana, Tere sath ho gai.

Ambua Kee dali pe gae matwali, Koyaliya Kali, nirali,
Savan ane ka Kuchh matlab hoga,
Badal Chhane ka Koi Sabab hoga.

Rim jhim Chhaen ghataen, Oe Kiya bat ho gai.
Teri Chunri Lahrai, barsat ho gai

गाऊँ तराना यारा झूम — झूम के होले होले
मुझको लुभाती है जवानियाँ, मस्ती लुटाती जिन्दगानियाँ
माने ना कहना पागल मस्त पवन सा दिल ये डोले ओले

कोई माने या ना माने, मैं हूँ आशिक आवारा
मैं सौदाई दिवाना मुझको चाहत ने मारा
ये चिकने चिकने चेहरे ये गौरी गौरी बाहें
बैचेन मुझे करती हैं, ये चंचल शोख अदायें
मुझको मिली है ये बैचेनियाँ, लिखूँ ख्यालों में कहानियाँ
देखूँ जहाँ कोई शमा, संग उसी के होले — ओले ओले

मैं तो डूबा रहता हूँ यादों की रंगरलियों में
मेरे सपनों का घर है महबूबा की गलियों में
दीदार जो हो परियों का मैं बेकाबू हो जाऊँ
रगीन लगे ये दुनियाँ मैं ख्वाबों में खो जाऊँ
मागूँ हसीनों से निशानियाँ, बहके शबाबों की रवानियाँ
हुस्न का जलवा मेरी इन आखों का परदा खोले

तेरी याद में जागूँ रात भर
बाजीगर ओ बाजीगर

ओ दिल देकर दिल लिया है, सौदा प्यार का किया है
दिल की बाजी जीता दिल हार कर
बाजीगर ओ बाजीगर

चुपके से आखों के रस्ते तू मेरे दिल में समाया
चाहत का जादू जगा के मुझको दीवाना बनाया
पहली नजर में बनी है तू मेरी सपनों की रानी
याद रखेगी ये दुनिया अपनी वफा की कहानी
ओ मेरा चैन चुराके मेरी नींद उड़ा के खो ना जाना किसी मोड़ पर
बाजीगर ओ बाजीगर।

धक धक धड़कता है ये दिल, बोलो तो क्या कह रहा है

है तेरे प्यार पे कुर्बान मेरा दिल मेरी जान

Baazigar O Baazigar

O mere dil tha akela tune khel eisa khila
Teri yaad main jagoon raat bhar
Baazigar O baazigar
Tu hai bada jadugar
O dil dekar dil leya hain, soda pyar ka kiya hai
Dil ki baazi jita dil har kar

Chupke sa ankho ke raste tu mere dil main samaya
 Chahat ka jado jaga ke mujhko diwana banaya
 Paheli nazar main bani hai tu mere sapno ki rani
 Yaad rakhegi ye duniyan apni wafa ki kahani
 O mere chain chura ke, meri neend uda ke
 Kho na jana kisi mod par

Dhak dhak dhakta hai ye dil
 Bolo to kya khai raha ha
 Pas aao bata doon, na baba dar lag raha hai

जादू तेरी नजर खुशबु तेरा बदन
तू हों कर या ना करे, तू है मेरी किरन

मेरे ख्वाबों की तस्वीर है तू बेखबर मेरी तकदीर है तू
तू किसी और की हो ना जाना
कुछ भी कर जाऊँगा मैं दिवाना

फासलें और कम हो रहे हैं, दूर से पास हम हो रहे हैं

एक लड़की को देखा तो ऐसा लगा
जैसे खिलता गुलाब, जैसे शायर का ख्वाब
जैसे उजली किरन, जैसे बन में हिरन
जैसे चांदनी रात, जैसे नरमी की बात
जैसे मंदिर में हो एक जलता दिया — ओ

एक लड़की को देखा तो ऐसा लगा
जैसे सुबहो का रूप, जैसे सर्दी की धूप
जैसे बीना की तान, जैसे रंगो की जान
जैसे सोलह सिंगार, जैसे रस की फुहार
जैसे खुशबू लिए आये ठंडी हवा — ओ

एक लड़की को देखा तो ऐसा लगा
जैसे नाचता मोर, जैसे रेशम की डोर
जैसे परियों का राग, जैसे संदल की आग
जैसे बलखाये बेल, जैसे लहरों का खेल
जैसे अहिस्ता अहिस्ता बढ़ता नशा — ओ

देखा है पहली बार

देखा है पहली बार, साजन की आँखों में प्यार।
अब जाके आया मेरे, बैचेन दिल को करार।।
दिलवर तुझे मिलने को, कब से था मैं बेकरार।
अब जाके आया मेरे, बैचेन दिल को करार।।

पलके झुकाऊँ, तुझे दिल में बसाऊँ।
अब बिन तेरे मैं तो, कहीं चैन ना पाऊँ।
तू मेरा जिगर है, तू मेरी नजर है।
तू मेरी आरजू, तू मेरा हम सफर है।।

ये अदायें, ये मेरी जवानी।
बस तेरे लिए है, ये मेरी जिन्दगानी।।
तू मेरी गज़ल है, तू मेरा तराना।
आ तेरी धड़कनों पे, लिख दूँ दिल का फसाना।।

Dekha hai pehli baa, sajan ki aankhoo mai pyar,

Palke Jhukaon, tujhe dil mai basanoo,
Ab bin tere mai to kanhi chain na panoo.
Tu mera zigar hai, tu meri nazar hai.
Tu mari arzo, tu mera ham safar hai.

Ye adayin, ye meri jawani.
Bas tere liye hai, ye meri zindgani.
Tu meri gazal hai, tu mera tarana,
Aa teri dharkano pe, likh don dil ka fasana.

ऐसी दीवानगी

ऐसी दीवानगी देखी नहीं कहीं,
मैंने इसलिए जाने जाना दीवाना तेरा नाम रख दिया,
तेरा नाम रख दिया,
मेरा नसीब है जो मेरे यार ने हँस के प्यार से,
बेखुदी में दीवाना मेरा नाम रख दिया,
हाँ नाम रख दिया,
तूने पहली नज़र में सनम, मेरे दिल को चुराया,
हुई दुनियां से पराई, तुझे अपना बनाया,
बिना देखे तुझे अब ना आये करार,
हर घड़ी है मुझे अब तेरा इंतज़ार,
तेरी चाहत की चांदनी मेरी आँखों में बस गई,
ये खुशबू तेरे जिस्म की मेरी सांसों में बस गई,
तू मेरी आरजू तू मेरी वफा,
जिन्दगी में कभी अब ना होंगे जुदा,

Aaisi diwangi

Aaisi diwangi dekhi nahi kanhi
Maine isliya jane jana diwana tera naam rakh diya
Tera naam rakh diya
Mera naseeb hai jo mere yaar ne
hans ke pyar se
Bekhudi mai diwana mera naam rakh diya
Ha naam rakh diya
Tune pehali nazar mai sanam, mere dil ko chooraya,
Hoi duniya se parayi, tujhe apna banaya
Bina dekhe tujhe ab na aya karar
Har ghari hai mujhe ab tera intzar
Teri chahat ke chandani meri ankho mai bas gai
Ye khusboo tere zism ki meri sanso mai bas gai
Tu meri aarzo, tu meri vafa
zindgi mai kabhi ab na honge juda

सात समंदर पार

सात समंदर पार मैं तेरे पीछे-पीछे आ गई,
मैं तेरे पीछे-पीछे आ गई, जुल्मी मेरी जान,
तेरे कदमों के नीचे आ गई,

न रस्ता मालूम ना तेरा नाम पता मालूम,
कैसे मेरे प्यार ने तुझको ढूंढा क्या मालूम,
सीधी तेरे पास, सीधी तेरे पास ये अँखियाँ मीचे-मीचे आ गई.

मैंने अपने चौबारे से ही तुमको आवाज,
नीचे गली में खड़ा रहा तू ऐसा था नाराज,
तू ऊपर ना आया तू ऊपर ना आया तो मैं
खुद ही नीचे आ गई,
